

Message from Managing Director, Mr. Ajay Poddar

Dear Friends,

I hope you have been getting our Monthly Newsletters regularly. We would be grateful if you can spare a few moments and give us your reactions and suggestions.

2014 has been a year of learning for us, which has prepared us for a big take off during this year. We have been able to create awareness about the problems of Radiation and the solutions available with talks by international experts and us at various forums, through media articles, etc. We have begun retail activities for the Enviro Chip in Delhi, which will be followed by increasing our footprint in Mumbai, Bengaluru, Hyderabad, Chennai and other Metros. Many reputed companies are partnering us in this effort. The Environics Service continues to get patronage from existing customers and is attracting new customers, who are making this an important part of their Sustainability programme.

We have been able to make a difference towards health and well-being for more than 200,000 people through our products and services by implementing our services in over 1,500 establishments and selling Enviro Chips to more than 100,000 people till date.

We look forward to your patronage, blessings and support to reach another 800,000 people this year.

Wishing all of you a healthy and joyous New Year.

THE YEAR THAT WAS

Special Achievements

107 new Projects executed by Environics, 84 existing projects reviewed and survey done for 36 new projects

Feedback Received from our Clients

We record changes occurring in four key parameters after implementation of Environics Service, in feedback forms. After getting the feedback forms filled by the clients, analysis of the forms is done to see the actual change in parameters.

Parameter	Changes/Improvement in the parameters %		
	Better than before	Same	left blank/ cant say
Remarks			
Interpersonal Relationship	49.1	40	10.9
Growth of company/Plant	60	29.1	10.9
Health of people	47.3	30.9	21.8
Machinery breakdown	56.1	17.1	26.8
